I thought we needed this for the next chloroprene update a week from today. Lou?

Chatted with Jennifer briefly. Is there someone on your staff that could convert this into a decision tree/figure with the different paths?

Talked to Jennifer about this this evening. She thought the timeline was a good start, but needs a little more oomph to be ready for the meeting.

Ex. 5 Deliberative Process (DP)

Sorry. I was typing quickly, but this pretty much captures it.

Happy Friday!

Subject: chloroprene timeline

Jennifer,

Here is our best estimate of timeline for decision making on chloroprene:

End of August: End of 30 day public comment period on candidate peer reviewers

Early to mid-September: Reviewers are selected, public meeting date identified, and 60-day peer review starts

Mid- to late October: Public meeting is held within 60-day review period; EPA and Ramboll make joint presentation to review panel

Mid- to late November: Final peer review comments are due

End of the year: Based on evaluation of peer review report, EPA will have the information needed to reach a decision on the Request for Reconsideration (RFR). The decision would be whether EPA will update the chloroprene assessment or not.

Let me know if you have questions....-k
